OBJECTIVE

Information Technology student with hands-on experience in Java, Android development, and Firebase, plus exposure to Python and cloud technologies. Seeking a Software Development / Web Development internship to apply my technical skills to real-world projects, learn from experienced engineers, and contribute to impactful products.

EDUCATION

Degree / Course	Institution	CGPA / %	Duration
B.Tech in Information Technology	Bharati Vidyapeeth College of Engineering, Pune	7.58 CGPA	2025 – 2028
Diploma in Computer Engineering	Jayawantrao Sawant Polytechnic, Hadapsar, Pune	86.11%	2022 – 2025
SSC (10th Standard)	S.A.K.E.M. School	83.60%	2022

TECHNICAL SKILLS

- Programming Languages: C++, Java, Python (basic)
- Web Technologies: HTML, CSS, JavaScript (basic)
- Mobile Development: Android Studio, XML, Firebase
- Soft Skills: Problem Solving, Teamwork, Communication, Time Management

WORK EXPERIENCE

ProAzure Software Solutions

3 Months

- Developed Android applications using Java, XML, and Firebase.
- Implemented user authentication, database integration, and responsive UI designs.
- Gained hands-on experience in the Android application development lifecycle.

PROJECTS

Raktdaan – Blood Bank Management System

XML, Java, Firebase

- Developed an Android application connecting blood donors, recipients, and blood banks.
- Implemented user authentication, blood search, inventory management, and emergency notifications.

ModzLab – Bike Accessories E-Commerce Website (Freelance Project) React.js, Django, JavaScript, HTML, CSS

- Developed a full-stack e-commerce platform for bike accessories with product, category, cart, and checkout functionality.
- Built a responsive React.js frontend and Django backend for product and user management.

Realm of Shadows – Fantasy Adventure Game

Unreal Engine 5, Blueprints

- Developed a closed-world adventure game using Unreal Engine's Blueprint visual scripting system.
- Implemented player movement, combat mechanics, enemy AI, quests, and interactive environments.

ACHIEVEMENTS

- Developed **ModzLab**, a full-stack e-commerce platform using React.js and Django as a freelance project.
